

## **OASE SOLAR POND PUMPS**

**SKU :** PPS250C, PPS600, PPS1600

### **PondoSolar 250**

Solar Fountain set for attractive fountains even when the sky is overcast or in the twilight hours. Different water patterns can be created with the 4 different nozzle heads. In the evening the LED lighting ensures a nice atmosphere and remote control offers more convenience. The set includes a fountain pump with a capacity of 250 l/h with the latest rechargeable battery technology. A solar panel module is also a component of the set.

**Product Features** – Rechargeable battery; Solar panel module; Remote control.

### **PondoSolar 600**

With no power connection whatsoever, the multi-talented Pondo Solar 600 Control ensures attractive fountains even when the sky is overcast or in the twilight hours. Different water patterns can be created with the 2 different, easily installed, nozzle heads of this solar fountain set. In the evening the LED lighting ensures a nice atmosphere at the pond and a remote-control unit (433 MHz) offers even more convenience. The set includes a fountain pump with a capacity of 600 l/h with the latest rechargeable battery technology (7.4 V 4000 mAh LI-ion). The set also includes a solar panel module (7W—9V). A maximum fountain height of 0.8m can be achieved.

**Product Features**- 600 l/h 12 V pump;7W Solar Panel; L-ION rechargeable battery 7.4v-4000Mah; 2 Nozzle heads and LED Lighting.
