Swimming Pool Lights

The overall structure of the lamp body is made of high-quality 316 stainless steel, and the external design adopts ABS embedded parts. The surface panel adopts a combination of tempered glass and sealing, the waterproof level is ip68, the sealing is tight, and water and dust cannot enter. The light transmittance is extremely strong, which can fully illuminate the light of the ip68 swimming pool lights and maintain the best colour effect.

Product specifications:

Underground Pool Light

Size: Dia 52x 72mm, 52x90mm

Beam Angle: 90*

Power: AC12V/ 24V

Housing material: 316 Stainless Steel

Cut out size: 47mm

Colour: Blue, Cool White, RGB and Warm White
